### PROFILE

I am a recent graduate with a degree in Information Systems from Bina Sarana Informatika University, with a career interest in Front-end development. My technical skills include React.js, Next.js, and Vue.js. I have participated in the Kodebisat program from Codepolitan, focusing on Full Stack MEVN, and I have completed several web application projects utilizing MEVN. Additionally, I pursued self-education at Altera Academy, concentrating on Front-end Development and contributing to various collaborative projects. My internship experience as a software developer at Bantex Indonesia has helped me hone my problem-solving and communication skills. I am committed to continuously developing my web development skills and aspire to apply them with creativity and professionalism in the workplace.
