ABOUT ME

Entry-Level Front-End Developer with experience in **React.js** and **Next.js**. Skilled in developing interactive and responsive web applications, including **Progressive Web Apps (PWA)**. Strong understanding of **UI/UX principles, state management (Redux)**, and **REST API integration**. Actively contributes to team-based projects using **Git**, **GitHub**, and **Agile methodologies**.

PENGALAMAN

Bantex Indonesia, Bogor

Sep 2023 – Dec 2023

Software Developer Internship

- Developed an inventory management system using React.js, Express.js, and MySQL, improving data input efficiency by up to 25%.
- Automated the annual document numbering system to accelerate transaction processes and reduce input errors.
- Optimized application performance through testing and debugging to enhance user experience.
- Explored and implemented new technologies to improve product quality.

Core Initiative x Rakamin Academy

Jun 2023 – Jul 2023

Project-Based Virtual Intern: Front End

- Completed tasks as a Front End Developer, focusing on Vue JS, unit testing, Firebase, and Docker. Developed an E-Commerce application using Vue JS as a final project.

Alterra Academy

Aug 2022 – Dec 2022

ReactJS Front-end Engineering Program

- Developed 3 interactive websites using React.js and integrated various REST APIs.
- Collaborated with backend, UI/UX, and QA teams in an Agile environment using GitHub Organization and Trello.
- Ensured well-organized project documentation with clear commit message descriptions.

PENDIDIKAN

Bina Sarana Informatika University, Depok

Aug 2020 – Aug 2024

Bachelor's Degree in Information Systems

GPA: 3.91 out of 4.00

PELATIHAN & SERTIFIKAT

AWS x Orbit Feture Academy

Oct 2024 – Dec 2024

Cloud Computing:

AWS re/Start Batch 10

- Completed a full-time classroom-based training and skills development program focused on IT fundamentals, AWS Cloud, and professional skills.
- Built foundational IT skills, including knowledge of Linux OS, and scripting in Python and Shell.
- Learned to apply core AWS services in compute, storage, and networking, including EC2, S3, IAM, VPC, Lambda, CloudFormation, RDS, and Route 53.
- Demonstrated strong verbal and written communication skills, including the ability to explain technical terms and concepts to non-technical end users.
- Learned how to configure, monitor, and support a range of core AWS services.
