About Me

My name is Marcell, a student majoring in Information Systems with a focus on Front End Development. I have a high enthusiasm for creating engaging and responsive user experiences and possess strong problem-solving skills. I enjoy learning new technologies and adapting quickly to changes. I have received Front End training from Alterra Academy and collaborated with fellow members to build complex applications.

Project C MYCUAN

Created to fulfill the final assessment in the MSIB Batch 3 program at Alterra Academy, this project aims to test the learning outcomes by designing and developing an application based on specific requirements. The implementation involves collaboration among multiple teams at MSIB Altera, including Front-End, Back-End, UI/UX Designers, Mobile Engineers, and Quality Engineers.

"Payment Point Online Bank" or abbreviated as PPOB is a real-time online bill payment service available 24/7, enabling faster, accurate, and secure data and fund reconciliation processes.
